

Pacific NW Section of AACC would like to invite you to the following presentation Friday, January 22, 2016.

Continuing education credit is available!

Title: Diagnosing Inborn Errors of Metabolism

Speaker: *Patricia (Patti) M. Jones, PhD
AACC President-Elect
University of Texas Southwestern Medical Center
Children's Medical Center
Dallas, Texas*

Program

Description: This talk will start out defining Inborn Errors of Metabolism (IEM) and briefly discussing newborn screening and why it is so important. Then the talk will present how diagnosis of IEM is performed, including the methodologies and techniques most commonly used for the diagnosis of the majority of IEM. This will include techniques for acylcarnitine, amino acid and organic acid analyses, the three tests most commonly used in this diagnostic field. Finishing up, the talk will cover several case studies which demonstrate both the signs and symptoms leading to investigations for an IEM, as well as the specific techniques used for the diagnosis of some of the most common IEM.

Location: **Blueacre Seafood**
1700 7th Avenue
Seattle, WA
98101

When: **Friday, January 22, 2016**
