**Diagnostics (RAMLD)**  
e-mail: [clinlabconsilium@yahoo.com](mailto:clinlabconsilium@yahoo.com)

Scientific and practical journal “Clinical Laboratory Consilium” is a practically oriented medical journal. Its aim is to help specialists in different fields of medicine to use laboratory information in all the stages of practical work (pre-clinical diagnosis, differential diagnosis, treatment, prognosis, etc.).

We are publishing original articles, reviews, brief reports, and information about symposia and conferences.

**Instructions for authors:**

1. The original articles should be up to 10 pages (2 intervals; font size 10 or 11; reviews should be no more than 15 pages).
2. The manuscripts are reviewed, the corrections are not sent to the authors; further work is conducted with the author’s original.
3. On the beginning of the first page the following information is to be mentioned:
  - title of the article
  - surnames and initials of the authors
  - name of the institution
  - short summary/abstract (no more than 200 words), key words (no more than 8).If the authors are working in different institutions, it should be marked by stars (\*).
4. Original articles should contain the following parts:
  - introduction
  - materials and methods
  - results and discussion
  - conflict of interest (including names of grant/funding sources etc.)
  - referencesThe article is to be signed by the author; the postal and (if possible) electronic address and phone number of the contact person are to be included.
5. All the abbreviations are to be explained when they are used for the first time.
6. The manuscript is to be sent in an electronic version (Microsoft Word for Windows) to the e-mail address: [clinlabconsilium@yahoo.com](mailto:clinlabconsilium@yahoo.com). The text of the article should be one electronic file and the file name is to be the last name of the first author. Each table or picture is to be submitted as a separate marked file.
7. For the section “Our authors” the following information should be included: bibliography, biographical data concerning the scientific work (topics of thesis; occupation and position; scientific interests; PhD specialists training; total number of scientific works; scientific degrees, titles and awards as well as the photo).
