

## Listening Instructions for AACC Podcasts

Below are instructions for listening to AACC podcasts on your computer. If you have any questions about downloading and listening to them on your portable media player, please refer to your user manual.

- If you have any questions about downloading them and listening to them on your portable media player, please refer to your user manual.
- If you're ready to listen to a podcast, click a podcast title below to launch the audio file in your default media player. If you experience technical difficulties listening to them on your media player, please contact your System Administrator.
- If you'd like to download a podcast to your PC computer, please "right-click" the podcast title and "Save Target As" to your desktop. If you are using a MAC, please "CTRL-Click" the podcast title and "Save Image As" to your desktop.
- If you experience any technical difficulties or have any comments or suggestions for future podcasts, please contact *Clinical Chemistry* at [clinchemed@clinchem.aacc.org](mailto:clinchemed@clinchem.aacc.org).
- These podcasts are for personal use only and not for distribution. Please refer to *Clinical Chemistry's* copyright policy.
