

Dear Members,

You are invited to attend the 2015 AACC Annual Meeting to be held in Atlanta, GA, July 26-30, 2015. As the Chair of the Endocrinology Division I am excited to invite you to the following Division events.

- **Endocrinology Division Annual Luncheon and Mixer - supported by Siemens**

Monday, July 27, 12 noon – 2:00 pm
Hyatt Regency Atlanta, Fairlie

Program

➤ **Welcome**

➤ **Presentations**

Diagnostic Endocrinology: 2015 update
Dr. Jim Faix, Montefiore Medical Center

Thyroid Function Test Standardization & Harmonization: 2015 update
Dr. Katleen Van Uyfanghe, Ghent University

Target audience

Laboratory directors, managers, supervisors; physicians, pathologists, clinical laboratory scientists, and residents/trainees.

Learning objectives

After hearing these presentations, attendees should be able to:

- Describe genotype-phenotype associations in congenital adrenal hyperplasia
- List lab tests useful in the diagnosis of polycystic ovarian syndrome
- Define strategies for reporting thyroglobulin results in patients with anti-thyroglobulin antibody
- List requirements for standardization or harmonization of lab testing
- Describe the proposed reference measurement procedure for free thyroxine and harmonization approach for TSH
- Define obstacles to implementation of thyroid function test standardization and harmonization

(Continuing Education Credits will be available)

➤ **Poster Awards**

Sonia La'ulu for *Zooming in on the low end: functional sensitivity of automated testosterone immunoassays.*

Suemi Marui for *Is free T3 useful to evaluate thyroid status?*
