Approved for 1 ACCENT Continuing Education Credit

Program Information

This program, which features Kristina Martin of the University of Michigan Hospital, is the sixth of eight in the AACC/Seattle Children's Hospital Lab Management Series of webinars. Register today and learn: what a laboratory quality dashboard is and how it can be used to improve quality; how information provided by a quality dashboard can lead to changes in either laboratory practice or clinical practice; and strategies for communicating information gained from a laboratory quality dashboard to others in the hospital setting.
