

SOUTHERN CALIFORNIA SECTION

SECTION MEETING – TUESDAY, MARCH 19, 2013

Interpretation of Cardiac Troponin: Generations, Populations & Standardization

Robert H. Christenson, Ph.D.

President of AACC

Professor of Pathology and Professor of Medical and Research Technology

University of Maryland Medical Center

AACC: A STRATEGIC LOOK

Gary L. Myers, Ph.D., FACB

Interim CEO of AACC

American Association for Clinical Chemistry (AACC)

<p>Location: Beckman Coulter, Inc, 250 S. Kraemer Blvd Brea, CA 92821 Phone: (714) 993-5321</p>	<p>Agenda: 4:00 – 5:00 PM Board Meeting 5:00 – 6:00 PM Mixer 6:00 – 7:00 PM Dinner 7:00 – 9:00 PM Speakers</p>	<p>RSVP Required by Thursday, Mar 14th, 2013 to socalaacc@gmail.com Free Admission (Thanks to the Generous Support of Beckman Coulter) Free Parking</p>
<p align="center">Approved for two hours Continuing Education (CE) credits</p>		

Learning Objectives: After the presentation, *Interpretation of Cardiac Troponin: Generations, Populations & Standardization*, participants will be able to

1. Explain criteria for discriminating different generations of cardiac troponin assays
2. Understand the difference between relative and absolute increase in troponin for use in diagnosis of myocardial infarction
3. Describe the definition of high sensitivity troponin and proposed utilization in prognosis
4. Outline the path to standardization for cardiac troponin I

Learning Objectives: After the presentation, *AACC: A STRATEGIC LOOK*, participants will be able to

1. Explain the vision and mission of the AACC
2. Integrate local section programming with AACC's new strategic initiatives
