

SECTION MEETING – TUESDAY, JANUARY 20, 2015

DEDICATED TO LIFE AND MEMORY OF DR. SOL NOTRICA

When and Why FAT Becomes Trouble?

Zhaoping Li, M.D., Ph.D.
Professor of Medicine,
Chief of the Division of Clinical Nutrition at UCLA

*Salivary Biomarkers for
Oral & Systemic Disease Detection*

David Wong, D.M.D., D.M.Sc.
Felix & Mildred Yip Professor,
Associate Dean of Research,
Director of UCLA Center for Oral/Head & Neck Oncology Research

Location: Beckman Coulter, Inc 250 So. Kraemer Blvd Brea, CA 92821 Phone: (714) 993-5321	Agenda: 4:00 – 5:00 PM Board Meeting 5:00 – 6:00 PM Mixer 6:00 – 7:00 PM Dinner 7:00 – 9:00 PM Speakers	RSVP Required by Thursday, Jan 15th, 2015 to socalaacc@gmail.com Free Admission (Thanks to the Generous Support of Beckman Coulter) Free Parking
--	---	--

Submitted for Two Hours Continuing Education (CE) credits

Unable to attend in person? Watch the presentations LIVE through WebEx!

Email socalAACC@gmail.com for more information

Learning Objectives: After the presentation, *When and Why FAT Becomes Trouble?* participants will be able to

1. Explain the etiology of obesity
2. Describe the metabolic changes related to obesity

Learning Objectives: After the presentation, *Salivary Biomarkers for Oral & Systemic Disease Detection*, participants will be able to

1. Describe emerging trends in salivary diagnostics
2. Understand the scientific foundation of salivary diagnostics
3. Translational and clinical utilities of testing

A NOTE ABOUT DR. NOTRICA

Remembering Dr. Solomon Notrica

Our friend and colleague, Dr. Sol Notrica unexpectedly passed on November 29, 2014, at the age of 91. He was still well until his last days and looking forward to participating at the upcoming Clinical Laboratory Technology Advisory Committee (CLTAC) meeting of the Laboratory Field Services (LFS), California Department of Public Health, as he did in the past.

Dr. Notrica was very active in AACC. He was an AACC and Southern California Section member since 1957. He also served as the Chair of the Southern California Section. During the years, he chaired two Annual AACC Meetings, 1974 in Las Vegas and 1982 in Anaheim. In 1994, he was the recipient of the Herbert O. Carne Service Award of the Southern California Section for services performed in behalf of our Section for long and extended period of time to advance the profession in the educational, training, organizational and/or legislative areas.

Sol Notrica served the clinical laboratory profession for many years. He was appointed to serve on CLTAC in the late 1960's and early 1970's. In the 1970's and 1980's, together with several other AACC members, Dr. Notrica helped LFS to prepare questions for California's written licensing examination for laboratorians. For many years, he sat on the panels for the oral examination for laboratory directors. In 1978 he participated together with several other clinical chemists in the formation of the first coalition of the clinical laboratory organizations in California, which later became California Coalition of Clinical Laboratory Professions.

He was a true professional and the laboratory community lost a very good colleague and friend.

If you are interested, Sol's four children established a scholarship fund at USC in his name. You may make a donation to:

The USC Lambda Alumni Association
Solomon Notrica Scholarship in Biological Science.

Mail To:

Ms. Danielle Harvey Stinson, USC, Sr. Director - Special Interest Programs
